I suggest that we setup a meeting in the Council Office to go over these issues. I will ask Robert Vega to work with Arturo to setup.

Thanks

Subject: Westchester

Hi Folks,

I have an ongoing list of issues, and I guess my confusion is I don't know who to turn to. As always, I start with Don and Vahik, as these are the people that motivated the additional storm drains at 89th St (Howard Drollinger Way) when we were in the middle of our 11,000,000 street improvements.

We have a few issues here in Westchester and Karen Dial would really like them addressed in the coming year..

1. Severe flooding on the east side of Sepulveda Blvd. from 84th St to La Tijera.
2. Construction on Arbor Vitae/Westchester Parkway that has had east bound travel clogged for what feels like 2 years...you would know better.
3. The eastbound on-ramp to the 405 which closes every time it rains, since the freeway opened (correct me if I'm wrong).

Yesterday I took Westchester Parkway to Pershing, Pershing to Imperial and you're doing work on Imperial...next time I'll try going pure north to go south?

Please understand, we appreciate the road improvements and all the thoughtful work that our Vahik and now Adel perform; however, it's time we sit down together and figure out how to correct flooding issues on one of the major arteries to and from LAX International and get a timeline on the completion of roadwork work surrounding us.

Re: Westchester

As always, we thank you for all your hard work. Looking forward to "improved driving conditions".

Happy Holidays
Miki
